### DISTRIBUTORS LIST

## Single Line Kites

### Key Ring

Great little novelty pocket sled kite in its own tough key ring carry case. A really eye-catching kite with tails. Flies amazingly well. Complete with reel and flying line.

Size: 33cm x 47cm (13in x 18in)

### Mini Kites

#### Diamond:

A traditional shape, small and sweet, great for kids of all ages. The frame is durable fiberglass, but due to its size this kite is best suited to light - moderate winds. It comes with a 1.5m tail and is really attractive in the sky.

Size: 26cm x 28cm (10.2in x 11in)

#### Delta:

A sleek and colourful little kite, suitable for youngsters. Comes with 1.5m tails and a fiberglass frame. This little gem is best suited to light - moderate winds and will keep the little ones entertained for hours.

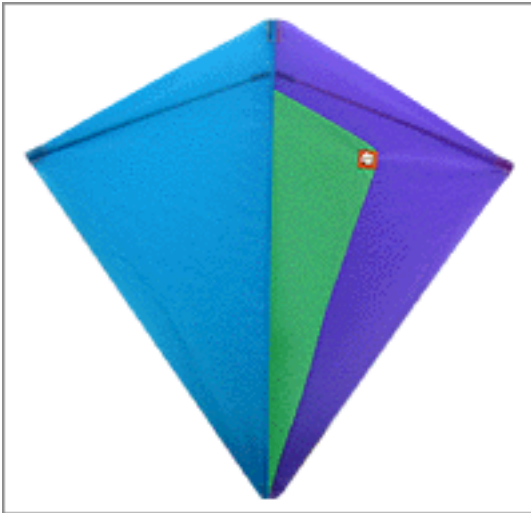

Size: 33cm x 20cm (13in x 7.9in)

#### Bat:

This one will have the kids going batty with fun! A great flyer, all in black and comes with 1.5m tail and fiberglass frame. This little guy is best suited to light - moderate winds.

Size: 35cm x 19cm (13.8in x 7.5in)

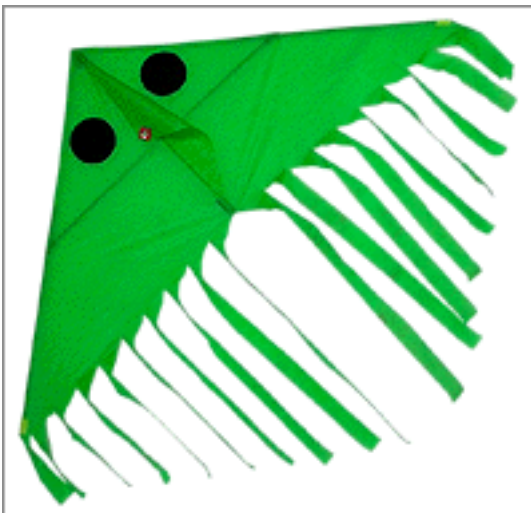

## Single Line Kites (Cont.)

### Skylark

An all time favourite, the diamond shape has been around forever! This kite does not pull too hard so it's just great for youngsters, comes in a great range of bright colours. Best suited to light- moderate winds and is supplied with a 5m tail that just adds to its attractiveness in the sky.

Size: 66cm x 66cm (26in x 26.8in)

### Nu-Nu

NuNu is the Zulu name for insect, and just like its name you will see that this kite just loves to fly. Once this little bug gets under your skin you will be hooked for life! A truly great kite for kids with its big black eyes and multiple tails it is really eye catching in the sky and will have the kids entertained for hours.

Size: 127cm x 55cm (50in x 22in)

### Raco

Incredibly realistic, both visually and in its flight characteristics.

In flight, this kite has birds in a panic and bird watchers scrambling for binoculars and bird books!

Dowel frame.

Size: 85cm x 72cm (29in x 34in)

### Single Line Kites (Cont.)

#### **Black Eagle**

Incredibly realistic, both visually and in its flight characteristics.

In flight, this kite has birds in a panic and bird watchers scrambling for binoculars and bird books!

Size: 122cm x 46cm (48in x 18in)

#### **Butterfly**

Beautifully realistic butterfly kite with twin streaming tails, this is such an elegant kite and great for all ages. Multi-coloured high quality print on nylon fabric with fiberglass frame. A good kite for light - moderate winds.

Size: 85cm x 65cm (34in x 25.6in)

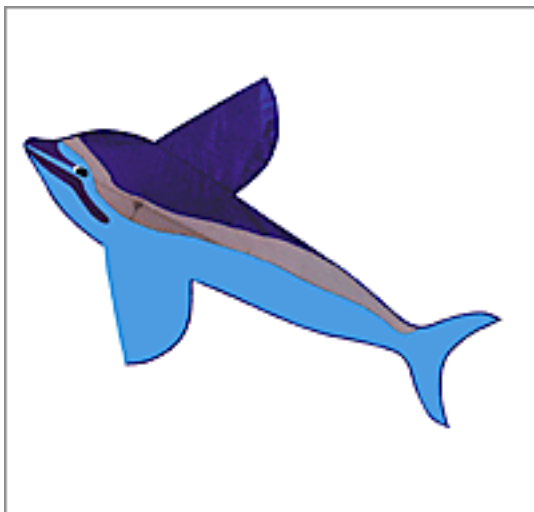

#### **Red Dragon**

A vibrant and exciting oriental dragon kite with long tail. This one is a must for impact. High quality print on nylon fabric with fiberglass frame. A really good kite for all ages and a good flyer in light-moderate winds.

Size: 100cm x 225cm (40in x 90in)

### Single Line Kites (Cont.)

#### Dolphin

Create a splash with this realistic dolphin, this little guy jumped straight out the sea and into the sky! A good sturdy kite suited to all ages and comes with a fiberglass frame and appliquéd detail.

Size: 183cm x 112cm (72in x 48in)

#### Whale

Gets the whole family having a whale of a time! This big kite comes with fibreglass frame and appliquéd detail. A good robust flyer, that will give you and your family hours of fun.

Size: 183cm x 125cm (72in x 49.2in)

#### Jumping Bear

What a novelty! A bear with a parachute that flies like a kite! This teddy is just so cute you can't help but fall in love with him, and he just loves to fly! The kite is brightly coloured and completely soft with no spars making it compact and easy to take anywhere.

Size: 130cm x 100cm (51in x 39in)

### Single Line Kites (Cont.)

#### Clown Fish

An amazing box kite in the shape of a fish, this kite is awesome and so realistic. It has a strong fiberglass frame and is a really reliable kite even in strong winds. An ideal character kite for the beach.

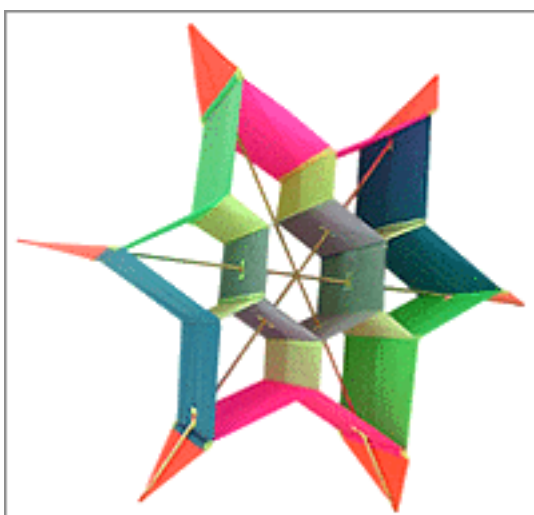

Size: 80cm x 70cm x 50cm (31.5in x 27.6in x 19.7in)

#### Skymaster

Delta Sled designed for kite fishing, aerial photography and falcon training where good lift and stability is required. Can be adjusted to tack into wind.

Size: 210cm x 82cm (83in x 32in)

#### Snowflake

This multifaceted box kite comes in various colours and will tumble end over end when the line is let out quickly, making it a truly unique and attractive kite in the sky. Great for all ages it will give you hours of fun.

Size: 90cm x 90cm (36in x 36in)

## Single Line Kites (Cont.)

### Skymonster

A really high performance delta/sled single line kite with excellent lift and stability in a wide range of wind conditions. Ideal for kite fishing, falcon training and aerial photography. The design of this kite allows it to be adjusted to tack into wind, this can be really useful when kite fishing off shore. It comes in a sturdy carbon fiber frame and can handle most winds.

Size: 280cm x 100cm (112in x 40in)

## Stunt Kites

### Dragon

An excellent entry-level stunt kite for all ages that can also be flown as a single line kite in light winds, thus giving you the best of both worlds!

- Speed 4/10
- Precision 3/10
- Freestyle 1/10
- Power 1/10
- Wind Range 6-20km/h

Size: 85cm x 68cm (34in x 27in)

This kite simply oozes charisma. Just one look and it says FLY ME! It is sleek and masterful, obedient to the flyer's commands by doing a wide variety of advanced tricks with ease and grace!

- Speed 7/10
- Precision 8/10
- Freestyle 8/10
- Power 3/10
- Wind range 5-50km/h

Size: 107cm x 200cm (42in x 78.7in)

## Eolo Sport Power Kites

### Mini Airflex

Smallest of the fun acro parafoils. Flies better in stronger winds with light pull.

- Line 2x 25m 23kg Dacron
- Speed 6/10
- Precision 5/10
- Freestyle 0/10
- Power 2/10
- Wind range 11-50km/h
- Weight range 30-50kg

Size: 110cm x 47cm (43.3in x 18.5in)

## Eolo Sport Power Kites (Cont.)

### Airflex

More powerful than the Mini Airflex but still perfect for kids. Good all round performance in a wide range of wind conditions.

- Line 2x25m 23kg Dacron
- Speed 5/10
- Precision 5/10
- Freestyle 0/10
- Power 3/10
- Wind range 6-50km/h
- Weight range 30-50kg

Size: 145cm x 59cm (57.1in x 23.3in)

### Radsail 1.8

A great versatile kite that has a good pull in stronger winds. Great for novices and younger flyers.

- Lines 2 x 25m 110kg Dyneema
- Weight range 30-60
- Power 5/10
- Speed 7/10
- Wind range 6-50km/h

Size: 81cm x 230m (47in x 138in)

### Radsail 2.4

This is the smallest of the quad (4 line) kites, great kite with good pull and performance.

- Aluminum quad handles
- Control lines: 2x 25m Dyneema 110kg
- Brake lines: 2 x 25m Dyneema 60kg
- Weight range 40-70kg
- Power 6/10
- Speed 7/10
- Wind range 5-40km/h

Size: 272cm x 90cm (107.1in x 35.4in)

## Eolo Sport Power Kites (Cont.)

### Radsail Pro 3

The Radsail Pro 3 deserves a place in any kite bag giving smooth and predictable power with easy maneuverability.

- Aluminum quad handles
- Control lines 2 x 25m Dyneema 158kg
- Brake lines 2 x 25m Dyneema 60kg
- Weight range 50-80kg
- Power 7/10
- Speed 8/10
- Wind range 4-50km/h

Size: 330cm x 94cm (129.9in x 37in)

### Radsail Pro 4

Great all round power kite. Can generate some serious power in strong winds so you need to be careful.

- Aluminum quad handles
- Control lines 2 x 25m Dyneema 158kg
- Brake lines 2 x 25m Dyneema 60kg
- Weight range 60-90kg

- Speed 7/10
- Wind range 5-45km/h

Size: 378cm x 104m (148.8in x 40.9in)

### Radsail Pro 6

Perfect power kite for light to moderate wind conditions. Very stable up-wind performance makes it ideal for light wind buggying and mountain boarding.

- Aluminum quad handles
- Control line 2 x 25m Dyneema 250kg
- Brake line 2 x 25m Dyneema 110kg
- Weight range 80-120kg
- Speed 6/10
- Power 9/10
- Wind range 5-40km/h

Size: 479cm x 133cm (195.7in x 52.4in)

## Eolo Sport Power Kites (Cont.)

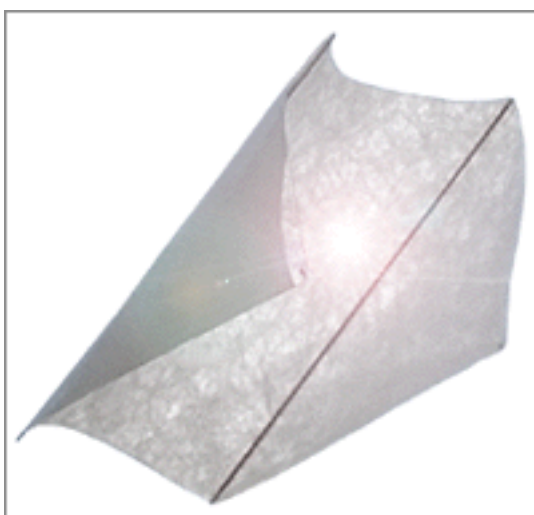

### Radsail Pro 7

This is the ultimate power kite and definitely not for the faint hearted or inexperienced. MASSIVE power even in light winds.

- Aluminum quad handles
- Control line 2 x 25m Dyneema 250kg
- Brake line 2 x 25m Dyneema 110kg
- Weight range 90-130kg
- Speed 6/10
- Power 10/10
- Wind range 4-35km/h

Size: 546cm x 145cm (214.7in x 57.1in)

### Kit Kites

### Sunseeker

A ready-to-build single line kite set containing 1 sheet TYVEK marked with kite plan, 2 x 5mm wooden dowel, 1 length bridle line, flying line and reel and full assembly instructions. TYVEK is amazingly strong material. This space age "paper" can be coloured with crayon, koki or water paint.

An ideal kite for activity groups at schools, clubs, workshops etc., or for children in general.

Size: 92cm x 74cm (36in x 29in)

### Windsocks

### Spinner

Fast-spinning, multi-colour and decorative for gardens, patios, balconies etc. They are made of ripstop nylon. They will spin in very mild winds and are fun for kids.

You can buy a few Spinners and join them together for greater effect.

Size: 27cm x 17cm (10.6in x 6.7in)

### Windsocks (Cont.)

#### Windsock 90cm (35in)

Our standard windsock that will indicate the lightest wind. Multi-colour, decorative, fun for kids. Ripstop nylon.

Size: 90cm x 14cm (102in x 44in)

#### Frog

Frog windsock is both an attractive decorative item and great fun for kids.

It flies in slight winds. You can also fill the Frog with cotton wool and put it up on a shelf or chair.

Made from strong ripstop nylon.

Size: 70cm x 32cm (27.6in x 13in)

#### Porky

Porky windsock is both an attractive decorative item and great fun for kids.

It flies in slight winds. You can also fill the Porky with cotton wool and put it up on a shelf or chair.

Made from strong ripstop nylon.

Size: 44cm x 41cm (17.3in x 16.1in)

## Windsocks (Cont.)

### Hefalump

Hefalump windsock is both an attractive decorative item and great fun for kids.

It flies in slight winds. You can also fill the Hefalump with cotton wool and put it up on a shelf or chair.

Made from strong ripstop nylon.

Size: 44cm x 41cm (17.3in x 16.1in)

### Airport Windsock

A true Airport Windsock. 1.23m (48in) long.

Popular among corporate buyers.

Made from strong nylon.

Size: 1.23m x 35cm (4ft x 13.8in)

### Spinsock 2m (6.6ft) Spinsock 4m (13.1ft) Spinsock 6m (19.6ft)

Fast-spinning, multi-colour and attractive windsock. Seen from far above your house or office. Made from strong ripstop nylon.

Sizes:

- Spinsock 2m: 2m x 26cm (6.6ft x 10.2in)
- Spinsock 4m: 4m x 38cm (13.1ft x 15in)
- Spinsock 6m: 6m x 68cm (19.6ft x 26.8in)

## Flying Toys

### Urban Poi

Poi juggling has a long tradition with New Zealand's Maori people and is now taking the world by storm. They are weighted balls at the end of strings with long colourful ribbons attached that they can be swung around the body making beautiful patterns. Children and adults enjoy challenging each other to see who can perform the best maneuvers.. The Urban Poi is a suede bean bag and comes supplied in a box with a storage bag included along with instruction leaflet.

### Aerobie Squidgie Ball

Made of soft molded rubber fins, squeeze the Squidgie ball and you won't want to put it down. Designed for kids as young as three, the Squidgie ball is great for both indoor and outdoor fun. Ideal for learning to play catch. It floats in water and dogs love it. Color assortment includes yellow, blue, purple, magenta, orange and green. The ball glows in the dark. Made in USA.

Size: 8.5cm (3.4in) - diameter

### X-zyLo

X-zyLo is the incredible flying gyroscope that has been thrown the length of two football fields.

It's a deceptively simple looking toy that can fly 600 feet (183 metres). Thrown spirally like a football, the X-zyLo becomes a flying gyroscope, resisting gravitational torque (force) and random air current torques. The cylinder's leading edge is thicker, so the upper and lower surfaces act as airfoils to provide lift. Made in USA.

Size: 9.5cm x 7.7cm (3.75in x 3in) - diameter x height

## Flying Toys (Cont.)

### Aerobie Dogobie Disc

The Dogobie is a flying disc made of a tear and puncture resistant material for play with your dog. The Dogobie incorporates the spoiler rim design for long stable flights in a soft, flexible disc that is gentle on your dog's mouth and teeth. It floats in water. The Dogobie disc is made in blue and yellow. (Those are the two colors seen by dogs. Other colors are seen as shades of gray.) Made in the U.S.A.

Size: 20cm (8in) - diameter

### Aerobie Sprint Ring

A smaller, lighter version of the original Aerobie Pro flying ring, the Sprint ring is ideal for those that enjoy the incredible flying performance of Aerobie rings but have a smaller area in which to play. The Sprint ring also has a soft rubber edge. It is made in an assortment of colors (orange, magenta and yellow). Recommended for kids 7 years old and up. Made in the U.S.A.

Size: 25.4cm (10in) - diameter

### Aerobie Pro Ring

The original Aerobie flying ring, the Pro Ring, holds a Guinness World Record for the farthest throw, an incredible 1,257 feet (383 metres).

The Pro Ring is made in an assortment of colors (orange, magenta and yellow). Recommended for kids 12 years old and up. Made in the U.S.A.

Size: 33cm (13in) - diameter

## Flying Toys (Cont.)

### Aerobie Orbiter Boomerang

A high performance outdoor boomerang, the Orbiter will fly out about 90 feet and then it really does come back. It combines an easy to throw, high tech, triangular design with a bright colored, soft rubber edge. Together these features make it easy to throw and see in flight and also soft to catch. Comes in the following colors: orange, magenta, and yellow. Recommended for kids 13 years old and up. Made in the U.S.A.

Size: 29.2cm (11.5in) sided equalateral triangle

### Aerobie Superdisc

A 10 inch (25.4cm) disc renowned for stable, accurate flights. It has a soft, rubber edge that provides a great grip for strong throws, it is soft to catch, and it does not develop sharp scratches and burrs like a conventional disc when it hits pavement. The Superdisc floats in water. Available in yellow, red, blue, and purple. Recommended for kids 8 years old and up. Made in the U.S.A.

Size: 25.4cm (10in) - diameter

### Sky Chopper

Flies and maneuvers like a real helicopter! The Sky Chopper is easy to control. Revolutionary design features advanced aerodynamics that give you lift-of and continual flight with as little as a gentle 8 mph (13km/h) breeze. Anyone can become a Sky Chopper pilot. In no time at all you'll become an expert, flying your Sky Chopper vertically, sideways, then bringing it down on a dime. Engineered with super-lightweight, resilient, flexible polymer and lightweight metal, so you can even crash land and it will keep on flying.

Size: 55cm x 29cm (22in x 11in) - width x height

## Kite Equipment

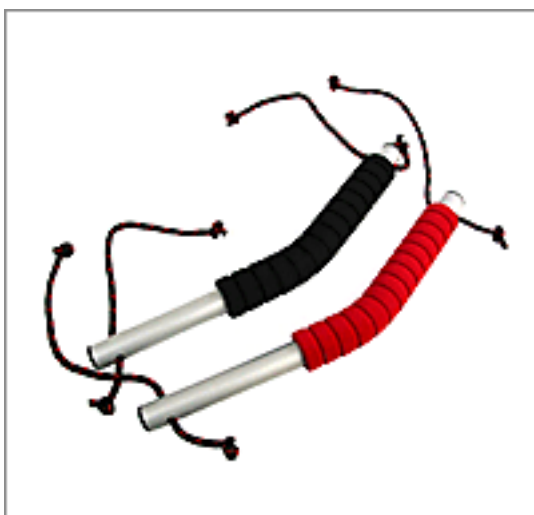

### Kite Buggy

Harness the power of traction kites for the exciting sport of Kite Buggy.

Use the power of the wind, just like on a sail boat or land yacht, for an exhilarating ride.

You will soon be getting speeds of 50 km/h (30mph) which feels very fast when you are three inches above the sand and who needs brakes anyway!

### Quad Handles

Very comfortable reinforced aluminum quad handles with soft grip.

### Radsail Traction Harness

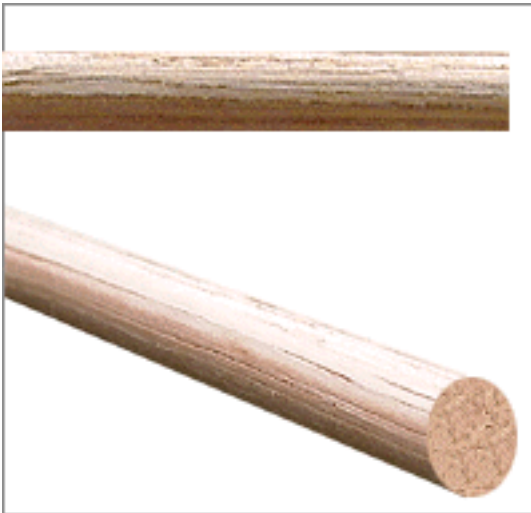

The ideal way to reduce the amount of power and fatigue on your arms when flying power kites. Can also be used with Buggies and Mountainboards.

### Kite Accessories

#### **Dowel Spar 5mm (0.2in)**

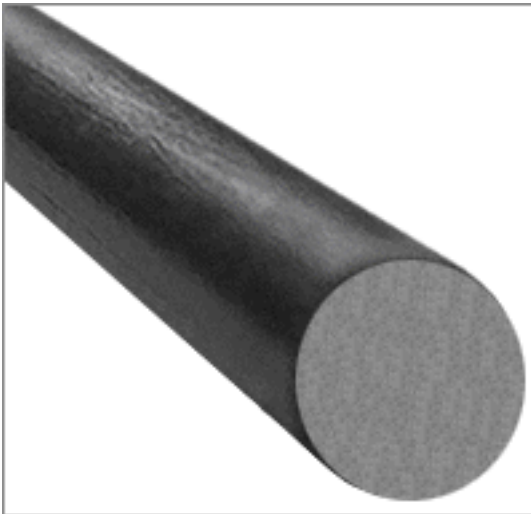

Dowel spars 5mm x 910mm (0.2in x 35.8in) made off Saligna.

### Kite Accessories (Cont.)

#### O-Rings

O-rings 13mm (0.5in) are available from our shop in any desired quantities.

Made of strong stainless steel.

We use O-rings on our kites to facilitate the attachment of the kite lines to the kite.

#### D-Rings

D-rings 33mm x 25mm (1.3in x 1.0in) are available from our shop in any desired quantities.

Made of strong stainless steel.

Usually D-rings are used for straps.

#### Kite Tails

PVC tails 5cm x 5m (2in x 16.4ft) for all kind of kites.

Colours available:

- Red
- Yellow
- Green

### Kite Accessories (Cont.)

#### Wrist Straps

Wrist straps are available from our shop in any desired quantities.

Loop 41cm (16in) will fit any hand.

Wrist straps can be used on all kinds of kite lines. They are used to make flying stunt kites, that have a strong pull, more comfortable on ones hands.

#### Blank Reels (Standard)

Reels are used for storage of kite lines.

You can easily wind 100m (328ft) of line on the reel. The reel is shaped to fit your hand comfortably. Can be used for both single line kites and smaller stunt kites.

Size: 12cm x 7.5cm (4.7in x 2.9in) - width x height

#### Polyester Line 60kg on Halo Reel (100m)

Polyester Line 60kg/100m (132lb/328ft) supplied with Halo reel.

A braided polyester line is used to fly bigger single line kites.

### Kite Accessories (Cont.)

#### Elastic Shock Cord

Elastic shock cord is available from our shop in any desired quantities.

Elastic shock cord is the kite's "shock absorber" used to absorb the kite's impact. Mainly used on bigger stunt kites.

#### Bridle Line

Bridle line 45/100kg (99.2/220.5lb) is available from our shop in any desired quantities.

This line is used to 'bridle' kites. The bridles of a kite enable you to adjust the kite's angle of attack/flight. These lines are made of an inner core of linear fibres sheathed in a woven polyester skin. The linear fibres reduce the stretch of the line thereby improving the performance of the kite.

#### Nylon Line 100m (328ft) with Reel:

This is a twisted hi-grade nylon line, thin and light weight, used to fly smaller single line kites.

Strengths available:

- 15kg (33lb)
- 20kg (44lb)

### Kite Accessories (Cont.)

#### **Nylon Line 30kg/30m (66lb/98ft) Twinpak**

Set of 2 with reels.

Nylon 30kg twisted line is used to fly smaller stunt kites. Most suited to beginner two line kites that do not generate a lot of pull.

#### **Polyester Line 40kg/30m (88lb/98ft) Twinpak**

Set of 2 with reels.

This braided polyester line is used to fly intermediate stunt kites.

#### **Dyneema Line 30m (98ft) + Straps Twinpak**

Strengths available:

- 110kg
- 158kg
- 240kg

Each set contains 2 reels and 2 wrist straps. Dyneema line is a braided and extremely strong line with minimal stretch mainly used to fly stunt kites and power kites.

## ABOUT HI FLY KITES

**Hi Fly Kites** is the largest manufacturer and distributor of kites in South Africa and Africa.

We currently have the widest range of kites on the Continent, sold to clients all over the world. Our kites are of very high quality, made from parachute and paraglider fabric. The frames are made mostly from carbon fibre, making our kites very light, strong and durable.

Our factory in Howick employs 10 people, makes 16 different original designs and sells to more than 30 outlets countrywide.

### Management

**David Sampson**

**Nadia Sampson**

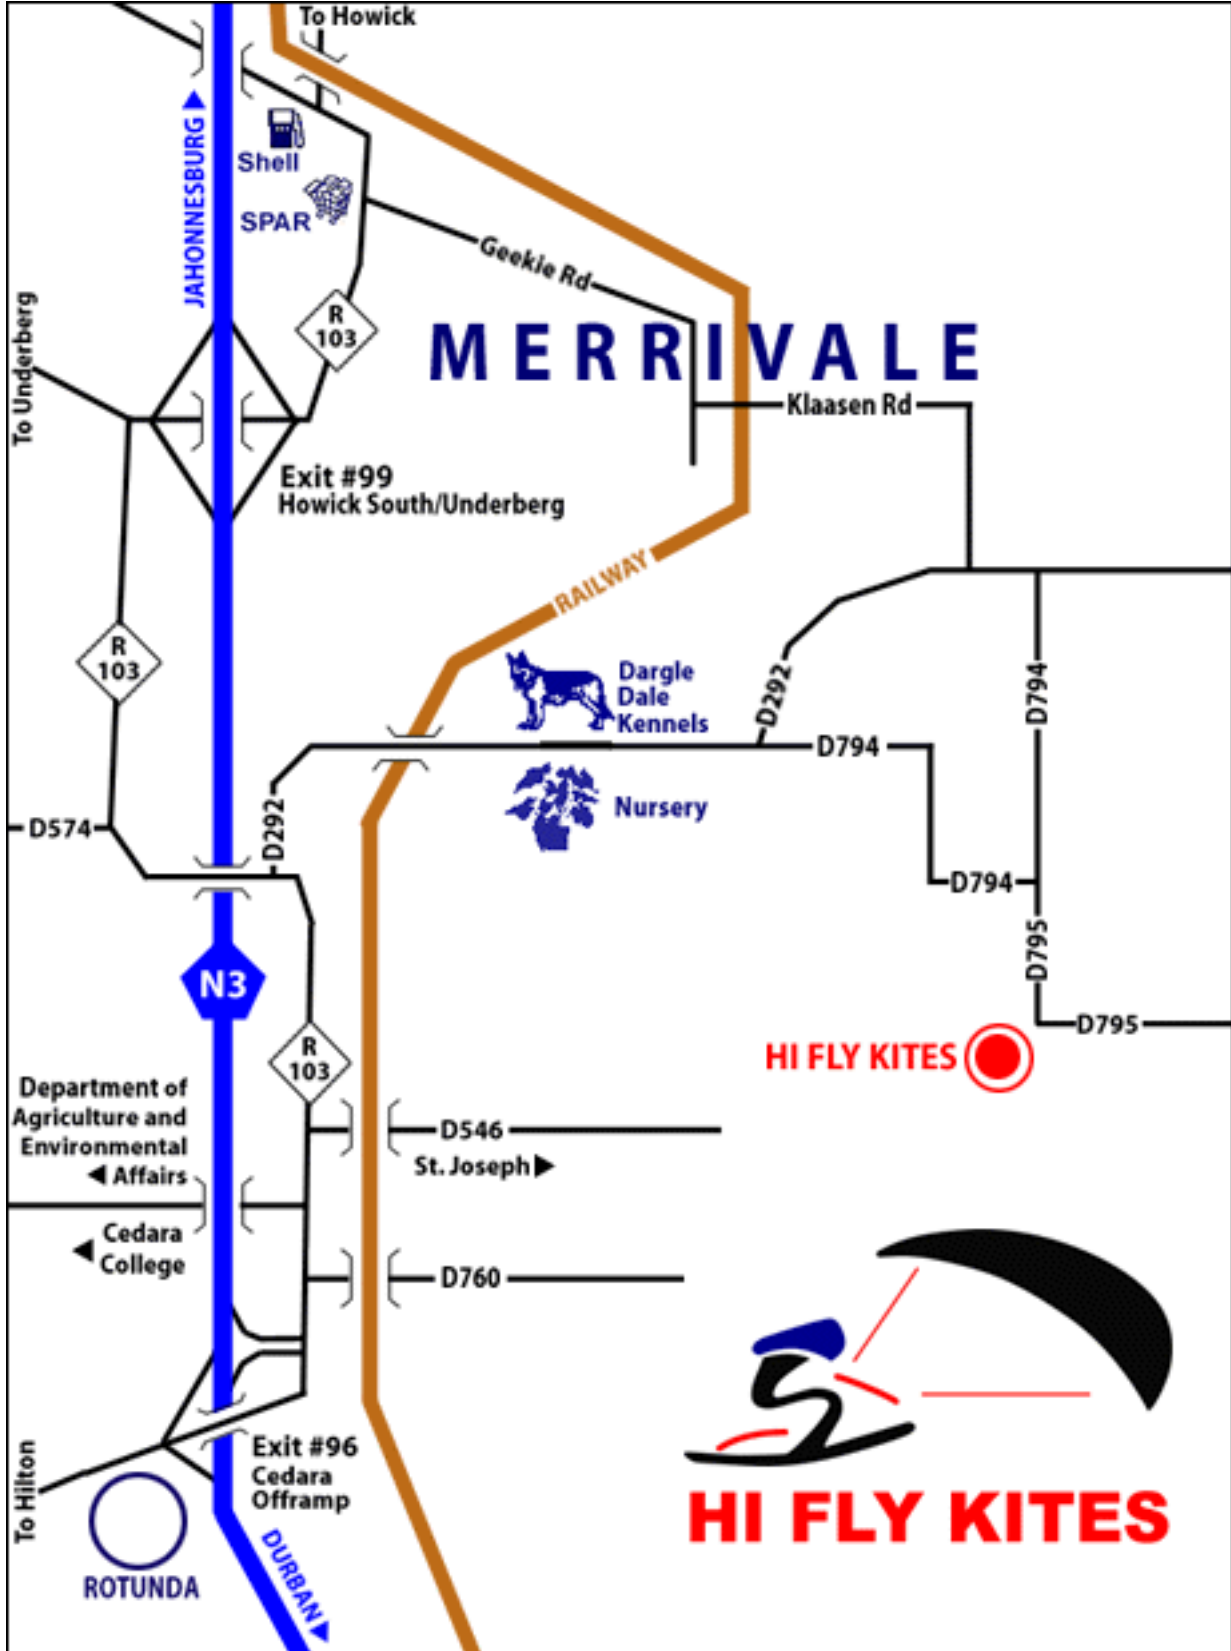

**John Reed - Manager**
