Embark on an adventure, fly a kite, ride the wind and let your spirit soar...

RADSAIL TRACTION HARNESS (For Traction and Power Kites)

The ideal way to reduce the amount of power and fatigue on your arms when flying power kites. Can also be used with Buggies and Mountainboards by means of adapting its different bends to the appropriate position. Reinforced sewing with stitches in the shape of an X as well as different fasteners - new NIFCO clips - make this modified Rad Harness almost indestructible!
