**Embark on an adventure, fly a kite, ride the wind and let your spirit soar...**

### **RADSAIL PRO 4 (Power Kite)**

Great all round power kite. Can generate some serious power in strong winds so you need to be careful. The quad line system allows for easy and safe launches and landings even directly down wind. The Pro range of Radsails were developed using a refined profile providing for a larger wind range with good stability, smooth flight and loads of power. These are great traction kites that have good off wind penetration for going up wind on buggies or mountain boards.

Multi-colour kite - colours as seen on the pictures in this catalogue.

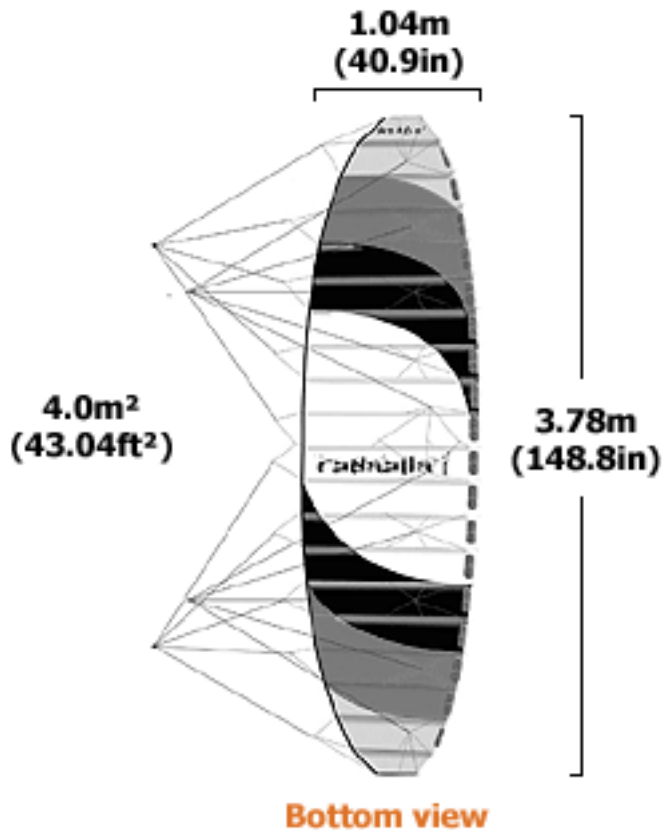

#### **Features of Rad Pro 4:**

- Size: 378 x 104 cm (148.8 x 40.9 in)
- 20 Cells
- Surface: 4.0m<sup>2</sup> (43.04ft<sup>2</sup>)
