Embark on an adventure, fly a kite, ride the wind and let your spirit soar...

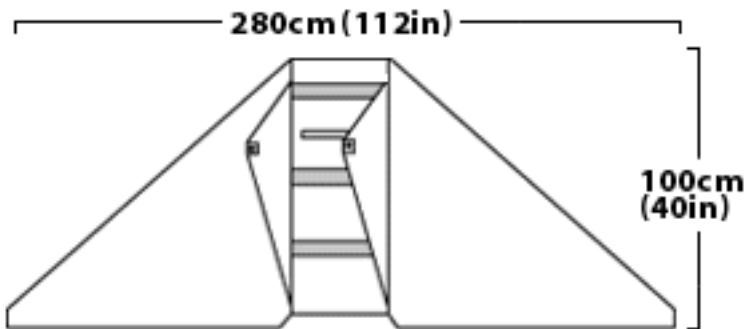

SKYMONSTER (Single Line Kite)

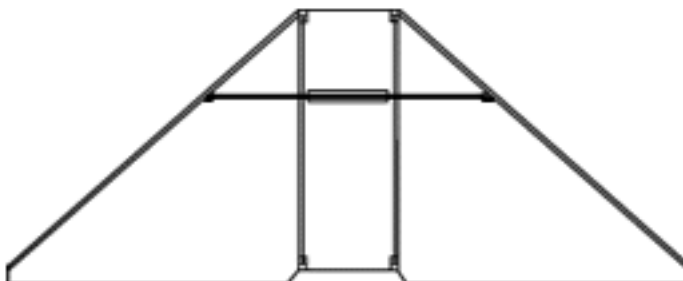

A patented delta sled designed for kite aerial photography and falcon training where good lift and stability is required.

Carbon fibre frame. Can be adjusted to tack into wind.

A smaller version of Skymonster - Skymaster - has a dowel frame.

Front view - panels

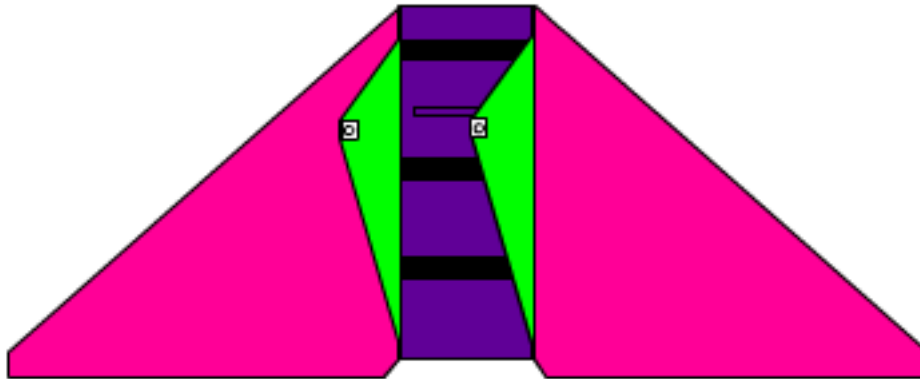

Back view - framework

All our kites come ready to fly!

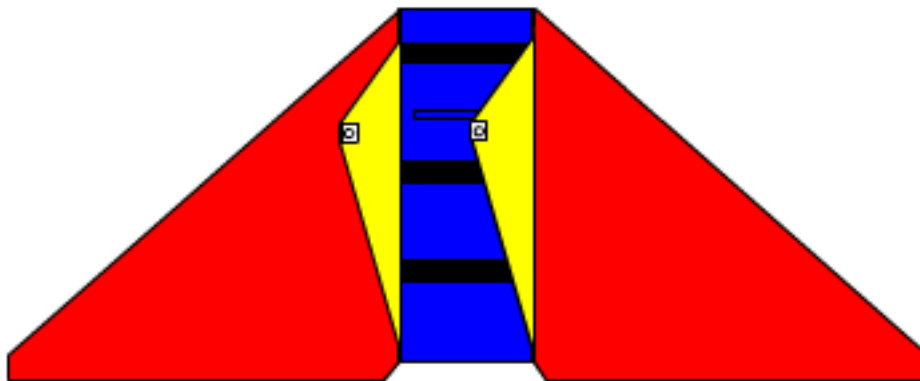

Colour Styles

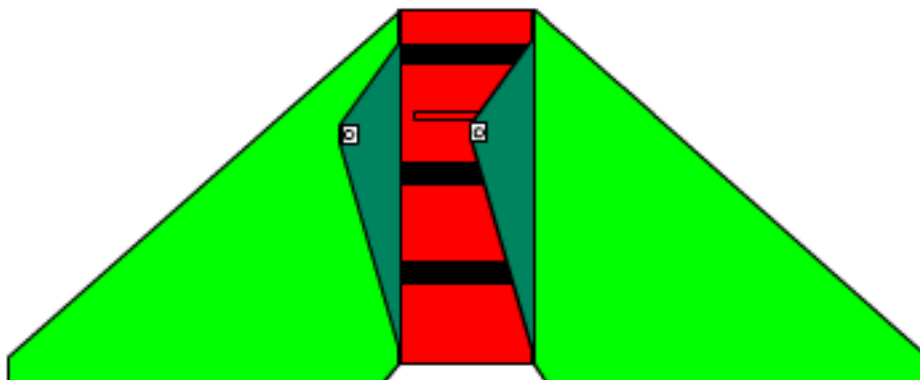

Colours that you see might vary from the real ones due to various screen settings on different computers. To see the colour codes and their descriptions click [here](#).

Pictures of Skymonster

The pictures below illustrate a flying Skymaster - a smaller version of Skymonster. The difference is in size (210cm x 82cm vs. 280cm x 100cm) and frame (Dowel vs. Carbon Fibre)

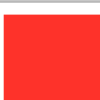

You can buy a Skymonster online right now at www.hiflykites.co.za. See you there!

Colour Names, Codes and References

The page contains the closest references to the fabric colours used by Hi Fly Kites. Please note that the fabrics are semi-transparent and the colour perception is different in daylight or artificial light. The page is best viewed in 32-bit (true colour) screen settings.
