### **SPINNER (Windsock)**

**Fast-spinning, multi-colour and decorative as kite tails or for gardens, patios, balconies etc.**

**They are made of ripstop nylon.**

**Spinners spin in light winds and are fun for kids.**

**You can buy a few Spinners and join them together for greater effect.**

**Multi-colour item without pre-defined catalogue colour styles. See examples of colour combinations on the next page.**

17cm (6.7in)

27cm  
(10.6in)

### Colour Styles

Spinner is a multi-colour windsock and does not have pre-defined catalogue styles. The examples on the diagrams below illustrate colour combinations that the windsock might have. Spinners have each panel coloured differently. It will then be a surprise. Each colour combination, however, is very attractive. You can buy a few Spinners and join them together - this way you can have a row of Spinners with the whole range of colours. Colours that you see might vary from the real ones due to various screen settings on different computers. To see the colour codes and their descriptions click [here](#).
