## **CUSTOMISED BANNERS, FLAGS AND AIRPORT WINDSOCKS**

We custom make various flags, banners and windsocks.

You can choose either screen-printed or appliqué. For screen-printed banners and flags the maximum print size is 600mm x 800mm (23.6in x 31.5in).

If you require larger prints we are able to appliqué (visible from both sides). This option is only available for flags and banners.

Airport windsocks are screen-printed, made with two printed panels, enabling the print to be visible on both sides. The available print area for airport windsocks is 300mm x 800mm (11.8in x 31.5in).

We are very happy to assist and guide you with your marketing needs and special requests.

A 50% deposit is required on confirmation of order and the balance to be paid on completion of order.

### **Pictures of Customised Banners, Flags and Airport Windsocks**

You can buy a customised Banner, Flag or Airport Windsock online right now at [www.hiflykites.co.za](http://www.hiflykites.co.za). See you there!
